Feedback

What a wonderful evening at the Science Museum, thanks again to the nine virtual schools involved in London Fostering Achievement for their continued support.

We had over 70 children and their foster carers attend, along with teachers and social workers from across the boroughs, Young Ambassadors, Achievement Coaches, Education Champions from the programme....and of course, celebrity chef Lorraine Pascale!

The smiles and excitement told their own story on the night and the following slides are a heart warming thanks to us all.

From the children.....

Thank you for having us at the science museum, I really enjoyed the science experiments and I loved the ice-cream, it was very fun and I loved the exciting rocket show, thank you for the voucher, I bought a voice changer and a blink watch, I actually want to be a scientist so this was the best thing to help with my science

Thank you for inviting us to the science museum and teaching us about all the scientific activities and how they work, it was so much fun and I loved it, I loved the amazing ice-cream and milk shakes, I used the voucher to buy science brain box and an electronic fish, I am really excited to use them and can't wait for them to arrive

Thank you so much for inviting us to the wonderful and amazing event at the science museum I am left with nothing to add as all my sisters have beaten me to the best thanks already I too hope we get a repeat next year

From the children.....

Thank you for inviting us to the science museum and than you for the vouchers, thank you for the rides and thank you for the drinks and stuff, I have lots of things from the ice-cream place, I used my voucher to buy a science note book and a blink watch

I'm so grateful for the event you set up at the science museum, thank you for the vouchers, I have already chosen a plasma ball and a blink watch and Mohamed has already ordered them for me, I wish you all the best

Thank you for everything you did for us on that night, it was such a kind thing of you to do, I think everyone enjoyed it, I loved the ice-cream, I even had 2, I hope you can do this again next year, I also loved the science experiments

From the children...

Really, really good I liked being the front of the rocket it was fun and I like everyone looking at me!

Exciting! mind blowing, stunt Barbie was Epic!

I thought it was cool, I knew about Newton Laws it was good to see them

I loved putting my hand in the ice then showing the infrared camera

And from the foster carers...

Thank you for a terrific night . The ice cream and shakes were a central part as was the flight simulator - neither of which our guys have experienced on previous visits to the science museum.

I think all the children really benefitted from the small group as opposed to being in with the masses of general public. My guys certainly learnt lots of science in a fun way, getting such a good ratio of museum staff to children was fantastic, for Aidan it was like a private physics lesson!

What a great school trip that would make (without the shakes & ice team being unlimited!). I thought it was an exceptional experience!

Carpe Diem! To foster carers for opportunities like this for children.

The gift of a voucher is a great gift: A collective 'Thank you!' For the fab things they chose.

And from the foster carers...

We all had a fantastic time.
Couldn't believe how amazing it
was.

My foster child had a wonderful
time and even learn some facts to
amaze his teachers at school with.
We would all like to say a very big
thank you to all involved. It was
such a great evening and felt so
lucky to be a part of it.

On behalf of our family unit we
would like to thank you for
inviting us to the above event.
We all had a good night. The
children found it very interesting
and fun. Loved the ice-cream and
milk shakes as well as the shows.

They thought the shows were
very informative as well. This
event should be done every year.

Congratulations - a job well done
and organised.

And from the foster carers...

Thank you so much for a fantastic evening at the Science Museum. We all had a such a great time. The milk shakes and ice creams were delicious. The presentation on explosions was hilarious and informative at the same time. A real treat.

It was great to see friends and everyone having such a good time. We felt very special. Gracie and Lexi loved trying the experiments, especially combining the ice pad and the heat sensor.

Thank you also for the voucher. Lexi bought a maths game, while Gracie bought a digital watch, which has her finally telling us the time (all the time).

Thank you again for a wonderful evening. You are lovely people.

And from the foster carers...

Thank you for the invite. My FC Abdul had a brilliant time. He enjoyed the 2 shows and got picked twice to help demonstrate. He loved hearing the bangs and seeing the fire!

He also enjoyed running round the launch pad checking out all the different things he could pull twist press and loved the shadow machine and the other machine that causes a bang as the end which I have forgotten what it's called! The ice cream milkshake was a bonus as its one of his favours things to drink and the extra special bonus was the £20 gift voucher which he pick a remote control car and a voice changing speaker!

Excellent time had! Thank you Again and we look forward to future events you may have.

And from the foster carers...

Both Khalil and myself had a fantastic, fun filled evening. Thank you for organising such an interesting event. Khalil is a science fan so all things science are great.

If you have any child sized t-shirts or science posters please forward them to us as a useful reminder of 'Our Night At The Museum'.

I would just like to say we all had a great time and my 2 foster children had great fun with the interactive exhibits and the flight simulators.

It was both interesting and informative and I would like to thank you so much for inviting us as a family.
