When: Thursday 2 July 2015

Time: 16:30 to 18:30

Where: Lilian Baylis Technology School, 323 Kennington Lane, London, SE11 5QY

Register at: <http://tinyurl.com/o7j5fcs>

University Learning in Schools

Twilight CPD session to launch new KS3 modules

You are invited to **FREE** event from Achievement for All and the Brilliant Club to launch **new modules and learning resources for KS3 teachers**.

Through the University Learning in Schools (ULiS) project we have developed modules and resources in Maths, History, Biology, Physics, Chemistry, Computer Science, Psychology, Economics, English Literature and RE. The modules are:

English	Stories of the Great North Road: Rogues, Riders and Runaways
Chemistry	The Engineer's Guide to Cleaning an Oil Company's Mess
Economics	Do I Need an i-Phone???
Mathematics	3D geometry: the shape of the everyday world
Biology	What happens in my brain during the day?
Physics	Exoplanets: Discovering and Characterising Planets Orbiting Other Stars
History	The First World War: Trauma and Memory
Computer science	How programming and the creation of algorithms can be used to solve problems
Psychology	Myth busting - the brain
RE	Buddhists and the world

Researchers from Queen Mary's, Kings College London, Oxford, UCL, Cambridge, Cranfield and the Open University have worked with teachers from Lampton, St Thomas More, Phoenix High School, Brentside High School, Cardinal Pole, Parliament Hill School, and The Coopers' Company and Coborn School to develop these modules.

Event objectives: to disseminate subject knowledge and 'walk through' KS3 resources

Target audience: KS3 teachers in STEM/Humanities subjects

Programme: plenary on the project plus individual subject workshops

All delegates will receive all resources on a USB stick
