Reflection

Hi, I'm **Sophia**. I believe in the **Social** theory of being a child.
I think that -

- Under 18's around the world have very different lives
- Children can do what is expected of them by adults and what they need to do to survive
- Children can make decisions and protect themselves and other people

I think that -

- Everyone under the age of 18 is a child
- Children need to be protected by adults
- Children need adults to make the right decisions for them
