

# Case Study: Family life in the UK (MEDC)

Location of the UK in Europe

Draw a self-portrait here.

## Describe the location of the UK:

.....

.....

## Facts about the United Kingdom

Capital city: .....

Population: .....

Life expectancy: ..... years

Population under 18: .....

Percentage of children enrolled in primary school: ..... %

Number of families: .....

## Family life in MEDCs

Which theory of childhood do you think applies to family life in the UK and other MEDCs?

Brian's BIOLOGICAL theory	Sophie's SOCIAL theory
[ ] Everyone under the age of 18 is a child	[ ] The lives of under-18s around the world can be very different
[ ] Children are protected by adults	[ ] Children make decisions and help and protect themselves and other people
[ ] Adults make decisions for children	[ ] Children play an important roles in their families
[ ] Adults provide for children	[ ] Children choose to go to school to make their lives better
[ ] Children spend their time at school or playing	[ ] Children make decisions and are responsible

In the UK children are expected to...

- 
- 
- 
- 
- 

I think the role of children in the UK fits with Brian's biological/Sophie's social theory because...
